

# IT SECURITY & SUPPORT CAPABILITIES

**SRL Total Source, LLC**

**Superior - Reliable - Lasting**

## ABOUT US

SRL Total Source, LLC (SRL) exceed expectations, focused on continuous improvement, and delivering operational excellence. We are an SBA certified, Small Socially and Economically Disadvantaged Business Enterprise, Serviced Disabled Veteran and Minority-Owned Small Business with headquarters in Waldorf, Maryland.

Our commitment to business conduct is guided by honesty, integrity, and our attention to compliance is unwavering. Client satisfaction is guaranteed using high-quality products and delivering process improved services diminishing risk and driving the value proposition.

Our Customers Include:

ASMR, Accenture, Prosphere, DOD, TSA, GSA, MDARNG, and Red River

At the forefront of all that we do, we prioritize continuous improvement. Through the acquisition of our CMMI Maturity Level 3 certification we proudly provide our customers with agile services while also helping them realize cost efficiencies.

## OUR MISSION

To provide Superior, Reliable, and Lasting solutions with focus on Digital Security, IT, and Access Control in the Government contracting space; while pursuing process improvement driven toward operational excellence.

## OVERVIEW OF SERVICES

SRL notably supported the CRISP Project by providing Tier 2 and Tier 3/4 on-site desktop technical security support services. Our team aided the programs response to security vulnerabilities, Material Weakness, FISMA, and provided OI&T Support. Our Team was located in the DC, MD, and VA area.

# DESCRIPTION OF CAPABILITIES

## TECHNICAL SUPPORT

SRL provided operational infrastructure and security protection support services, technicians, and analysts necessary to support ASM and the VA in addressing system security vulnerabilities components, ensuring information security risk controls are implemented and monitored, and in response to Federal Information Security Management Act (FISMA). VA's goal is to reduce the number of existing vulnerabilities to a level that removes a long-standing Material Weakness (MW) in its annual FISMA audit due to these security vulnerabilities.

## SECURITY SUPPORT

SRL Provided Security Support Services to ensure MW and continued fears of the theft or leakage of Veterans' privacy information because of security vulnerabilities had attracted substantial negative attention from VA management, Congress, administration officials, and the public. In response to the MW findings from the FISMA annual audit, OI&T required support across OI&T (the Office of Information Security [OIS], and IT Operations and Services [ITOPS]) to support the implementation of all recommendations identified in the FISMA and FISCAM audits.

## RSS SUPPORT

SRL delivered the operational infrastructure and security protection support services necessary to support VA in addressing system security vulnerability components, ensure information security risk controls are implemented and monitored, and adhere to FISMA and FISCAM audit reporting requirements.

## THE LEADER

### DR. ROBERT LANE, JR

**Dr. Robert Lane, Jr. is SRL's Chief Executive Officer. He is a combat veteran with a career that spans nearly 27 years in the United States Army Dental Corps. He holds a Doctor of Medical Dentistry from Temple University School of Dentistry, and a Master of Business Management and Acquisition from Strayer University.**

**As the CEO, Dr. Lane is intimately involved in managing SRL's highly technical and diverse workforce, ensuring a challenging and rewarding work environment where the employees' can thrive in their expertise directly benefiting our valued clients.**

**He is also responsible for the achievement of both tactical and strategic goals and objectives to ensure excellent customer service delivery, including identification of emerging trends that will add intrinsic value to the clients we serve.**
